Trigger
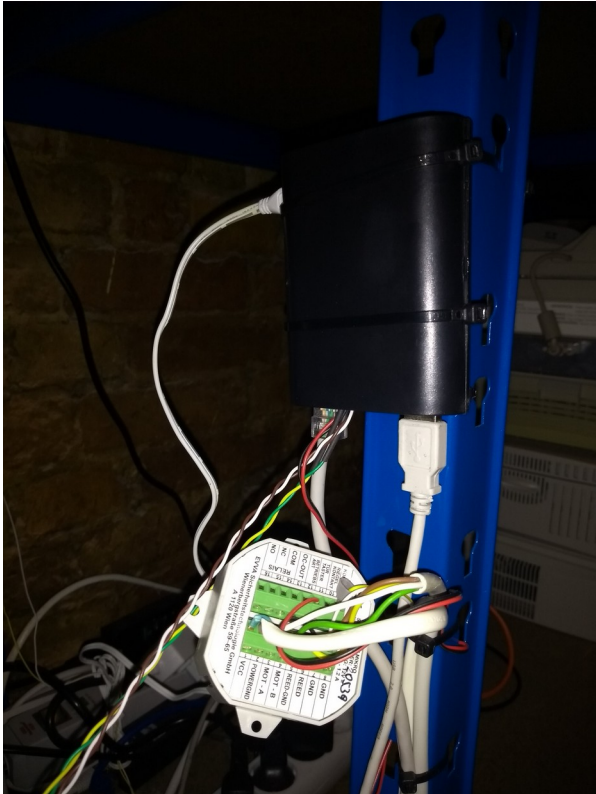

Problem: We have *space, but only <4 keys.

# Let's hook it into the Network

- Raspberry Pi
  - connect to network
  - connect to door
  - webserver + cgi-script
- Electric door mechanism
 - Buy it
  - Or build/solder/3d-print it yourself:
    - https://github.com/openlab-aux/sphincter

It Works...

But still a problem… my laptop/phone...

The App

Feature Explosion

Get it / hack it

https://f-droid.org

https://github.com/mwarning/trigger

Thanks!
